

**The creative ensemble with your iMac.
The all new plat-form designed storage.**

" I was looking for a storage system that would integrate seamlessly with my iMac, I found it....it was the design of the DECKTANK that was the real decider for me. Sitting directly under my iMac, desk space is not an issue. "

- Ross Blakely, www.graft.co.nz

DECK

Plat-form Designed.

With the exterior design that directly focuses on the better usage of your workspace, the new DECKTANK Series unites storage & iMac to keep your creative environment clean and simple.

Peaceful and Quiet.

The DECKTANK holds plenty of internal room for adequate airflow as well as two rear heat extracting fans that are silent so you can work peacefully, quietly and comfortably.

I/O ports right up front.

You will have an easier time in connecting your iPod, digital camera without having to strain your body with awkward motions when the I/O ports are brought up right in front of you.

Integrated media card reader.

The easy to use all in one media card reader positioned at the front supports SD/MMC series, CF/MD series, SM/xD series and MS series of media cards (Available in Firewire 800 model only).

It's Time Machine friendly.

Yes! The DECKTANK supports Time Machine included in the Mac OS X Leopard. All of your Time Machines files will be backed up to the hard drives enclosed in the DECKTANK.

Store to your preference.

The DECKTANK provides various storage mode options (based on model).

JBOD : Separate volumes will be seen in your system per each drive installed.

N-RAID : One large volume will be seen in you system per the combined capacities of both drives.

RAID 0 : One large volume will be seen in your system per the combine capacities of both drives with fast transfer rate.

Up to 2TB of storage.

If your digital life consists thousands of creative digital snapshots, video clips and music masterpieces, the DECKTANK enables you to archive them by equipping you with 2 hard drive bays capable of supporting up to 1 Terabyte each.

Secure with confidence, Remove with ease.

Equipped with removable hard drive trays, removing a drive would be absolutely hassle-free! Each tray is equipped with a locking mechanism to securely lock the drive into place and avoid accidental removals in keeping your drives and data safe.
